SKILLS

- Javascript | TypeScript | React | Three.JS | Electron.JS | SQL | PHP | Laravel | Node.JS |MongoDB | Git
- Python | TensorFlow | Pytorch | NLTK | Flask | API | Cloud Computing | VB.Net | Full-Stack | Firebase
- Database Design | RDBMS | NoSQL | Data Modeling | Database Administration | Big Data Technologies

EDUCATION

University of Greenwich - BSc Hons Computing with Business Management   -   *Ongoing (Expected Graduation 2024)*
NCC Education - Advanced (HND) Diploma 3,4 & 5 in Computing (with Business Management) - 2023

EXPERIENCE

The Bright Network, IEUK | Technology internship   June 2023
- While completing IEUK technology internship, I gained hands-on experience in software engineering, A.I, cloud architecture, project delivery and collaborations with a cross-functional team of professionals.
- Delivered a comprehensive presentation showcasing an innovative application solution with mockups aimed at helping SMEs to improve sustainability, in the Journey to Net Zero Hackathon by LLOYDS Banking Group.
- Demonstrated exceptional problem-solving skills, adaptability, and a proactive approach in meeting project requirements, with insights gained from industry leaders at Google, PwC, Amazon and Vodafone.

Clifford Chance |Global Cyber Security Internship   April 2023
- Provided practical guidance during an ICO Dawn Raid, implementing effective cybersecurity measures and mitigating risks.
- Assessed legal implications of a data leak, taking prompt action to enhance data security and develop a robust defense strategy for a data-related damages claim.

PROJECTS

Full Stack Project | Business Finance Tracker with AI

TypeScript | Node.JS | MongoDB| LangChain
- Designed and developed an AI-powered Finance Tracker with real-time tracking modules, enabling accurate predictions, insightful reports, and visually appealing graphs.
- Developed a GPT-like chatbot using a pre-trained language model for conversational access to the database.
- **Github:** github.com/KwabenaSark/Fianance-Tracker-with-A.I

Full Stack Project | Portfolio Website

React | Three.JS | GSAP
- Single Handedly developed and designed a portfolio website using React.JS and Three.JS with the aim of showcasing recent achievements and the reach of my abilities.
- **Demo:** kwabsark7.web.app

OTHERS

Goldman Sachs : Software Engineer Virtual Experience Program
IBM Cloud Essentials Certificate : Demonstrating proficiency in cloud computing concepts and practical knowledge
Relevant Course-work: Programming | Algorithm and Data-structures | Lean Principle |Business Management Concepts | SDLC
